## STORM EUNICE

The UK was being battered by Storm Eunice last Friday, which forecasters said could be one of the worst UK storms in three decades.

A wind gust of 122mph at the Needles on the Isle of Wight is provisionally the highest gust ever recorded in England.

In London, parts of the O2 Arena's roof have been shredded which closed the building.

DON'T FORGET IT'S SHERRY TIME AT 3.00 O'CLOCK EVERY DAY!
